A presentation for women who are fed up with failing at love

MOST DIVORCEES will tell you that their marriages began with powerful emotional and physical bonds. They really loved their spouses and wanted to be together forever. But the stunning fact is that more than 50% of the time, it doesn't work. That's because our notions of love are no match for incompatibility, a force that grinds love down to nothing but a memory. So what are we doing wrong?

We've been following a fairy tale about what it takes to make a great marriage.

Forget Prince Charming. A "forever marriage" based on true compatibility is best realized through a thoughtful discovery process, the details of which are revealed in this life-changing presentation. *The Compatibility Code* creator Elizabeth George brings her extraordinary energy and experience to help audiences take the guesswork out of compatibility and reduce the role of emotions in making relationship decisions. The goal is to help women minimize their risk in dating, increase their confidence in finding the right person, and improve their ability to make better choices when it comes to life partners.

What's the #1 factor in life satisfaction?

The quality of your marriage.
