

Award-winning businesswoman and world-class athlete Elizabeth George is a relationship compatibility expert specializing in fixing relationship problems before they occur.

Developing Relationship and Marriage Compatibility: Elizabeth has facilitated hundreds of interactive groups on pre-marital success, marital compatibility, communication, and conflict resolution. Elizabeth George, MA, CSP™ and her husband Darren George, Ph.D. have found that more than anything else, people are hungry for loving, stable relationships. Their research shows that unfortunately, our culture has lost sight of what makes a great marriage and misunderstands how unreliable the emotion of love can be. Together they created *The Compatibility Code*, an impeccably researched process that helps audiences build forever love, relationship and marriage compatibility.

Improving Business Relationships: Elizabeth focuses on assisting clients to understand the power of relationships to impact productivity and performance, beginning with the hiring process, through personnel issues, employee retention, and extending to methods for supporting the off-work relationships of employees.

Elizabeth has a wide breadth of experience in human resource development, team engagement, customer experience, process consulting, and corporate change initiatives. She has worked with the U.S. Small Business Administration, state and national economic development organizations, and taught as a university professor in both the U.S. and Canada. Elizabeth ran a bed & breakfast featured in *Southern Living* and consulted as a specialist in tourism operations and marketing. She has a master's degree in Human Resource Management, received certification as a Christian lay counselor, competed for five years with the U.S. International Shooting Team, and was World Champion in Crossbow.

Elizabeth, and her husband Darren, are co-authors of the award-winning book, *The Compatibility Code, An Intelligent Woman's Guide to Dating and Marriage*. This easy to follow partner selection code helps women reduce the risk in dating, increase their confidence in finding the right person, and equip them with tools to improve their choice in order to find a love that will last a lifetime.
