

*Introduction for*  
**Elizabeth George**

Note to Emcee: Please read this as written! Don't add anything at the end! Thanks!

The old saying, "Keep trying until you get it right" has a weakness. In today's wickedly fast-paced, perilous climate, you may only get one chance to make things work. That's where award-winning speaker and author Elizabeth George's unique approach to "Getting it right the first time" can make all the difference.

As a relationship expert, Elizabeth shows people how to choose partners to create successful, compatible relationships, both in their personal and professional lives. She is currently CEO of Compatibility Solutions LLC and in an earlier life was World Champion in Crossbow ... it would be a good idea to pay close attention today — she knows how to help you achieve your goals!
